the speed of innovation
is extremely high'*

Moving in technology

As VHP2 we are network, trade union, knowledge field and particle accelerator together. We work for you. In every phase of your career. We move towards result.

vhp2.nl

Particle accelerator for talent

You are highly-educated, professional and ambitious. Your heart is in technology. We help you to realize your ambition. We make sure that your talent gets a boost. That your strength increases thanks to good conditions of employment and a healthy career.

Personally through practical advice and coaching. Collectively through the negotiation of the best terms of employment with social partners and employers such as Philips, Fokker, Siemens, Stork, ASML and NXP. Our network.

Join us and make us more valuable. For yourself.

Technology your passion? We make it worth while

Every phase in your career has its own area of special interest. Our services are tailored to your demand. Besides working for the collective interests, we offer coaching and personal advice.

Young professionals: Advice on your application, your first contract, job evaluation and salary. What are the consequences of working abroad? When you are not sure about which direction to go or if you want to start you own business? Maybe you need a mentor. Someone with an overview. We mediate and contribute our network. And.. if you are younger than 30 you only pay 50%.

Professionals: You are highly-educated. Specialist in technology and technical processes. Ambitious in the practice of your profession. You follow courses and take your steps. Private affairs also need attention. It's a force field. A strong appeal is made to you. From all sides. How do you take care of your own employability? How do you make sure that your career keeps up to date?
